

# *Sometimes the best pediatric medicine has nothing to do with science at all.*

## *How to help:*

**\$100** sends 4 Fun Pack backpacks given to pediatric patients when admitted to the hospital.

**\$50** sends 2 Teddy Bears to sick children in a Colorado hospital.

**\$25** receives Starlight Note Cards – designed by our delightful Starlight children.

**DONATE NOW AT**

2009 was a banner year for the Starlight Children's Foundation and we have many of you to thank for our progress. This past year we increased our program outreach by nearly 65% through our family-focused activities called Great Escapes. More than 4,000 children and their families attended our Starlight Great Escapes and now we are seeing even more demand for these services.

With your support we will create greater impact and continue to support our programs that change children's lives on a daily basis and truly make their world a better place. Help us continue to bring smiles to those little faces dealing with big illnesses.

Our founding Board Member and generous Denver philanthropist, Laura Christman and the Laura and Bill Rothacker Foundation have once again, made a **Challenge Matching Grant of \$25,000** to Starlight Children's Foundation. We need your help to raise \$25,000 by October 31, 2010!

Your matched donation of \$25, \$50, \$100 or \$500 will help brighten the life of a seriously ill child in Colorado.
